

# REF.6100 : SANDBLASTING HELMET « DROIT » PREMIUM

This sandblasting helmet is lightweight and comfortable, it is really suitable for any type of sand blasting work. The blasting helmet DROIT is designed with a large viewing window. This window is an important asset when the movements of the sandblasting operator are limited.

## ADVANTAGES

The « **DROIT** » sandblasting helmet is equipped with a pressure regulator, an air flow indicator and a comfortable nylon cape.

A large glass pane and a metal mesh screen preserve the operator's clear vision and protect against dust and dangerous abrasive jets.

A large inner window fits securely into a molded rubber seal. A glass pane protects the inner glass from glazing and can be easily replaced.

A large mesh screen protects against dangerous abrasive jets.

Its design ensures a good and constant airflow to the visor to prevent formation of fog.
