

Ref. 6201 / 6205 : HEAVY-DUTY LEATHER SUIT PROTECTION.

Combination for sand blasting, shot blasting; corundum, micro or welding, front leather, cotton back. The combination has been especially designed for situations of intense exposure to abrasives and the sparks. Leather is a material characterized by excellent mechanical strength and sparks shot. The back of the suit is lightweight cotton for a cooling effect.

Sizes available : S, M, L, XL, XXL, XXXL.

The Heavy Duty Breathable Cotton back is designed to keep you cool. The leather protects from sparks and abrasive rebounds.
