

# 1109. ABRASIVE CONTROL VALVE 1/2"

The Abrasive control Valve 1/2" is used to provide precise metering of abrasive from the blast pot to the blast hose.

One fixed, and one movable stainless steel metering plate provide long life and a high degree of metering adjustment, ensuring maximum productivity without abrasive wastage.

The Abrasive control Valve is best suited to blasting applications using expendable type abrasives, such as crushed glass and copper slag.
