

WEAR-RESISTANT "CLASSICAL" SANDING TUBES

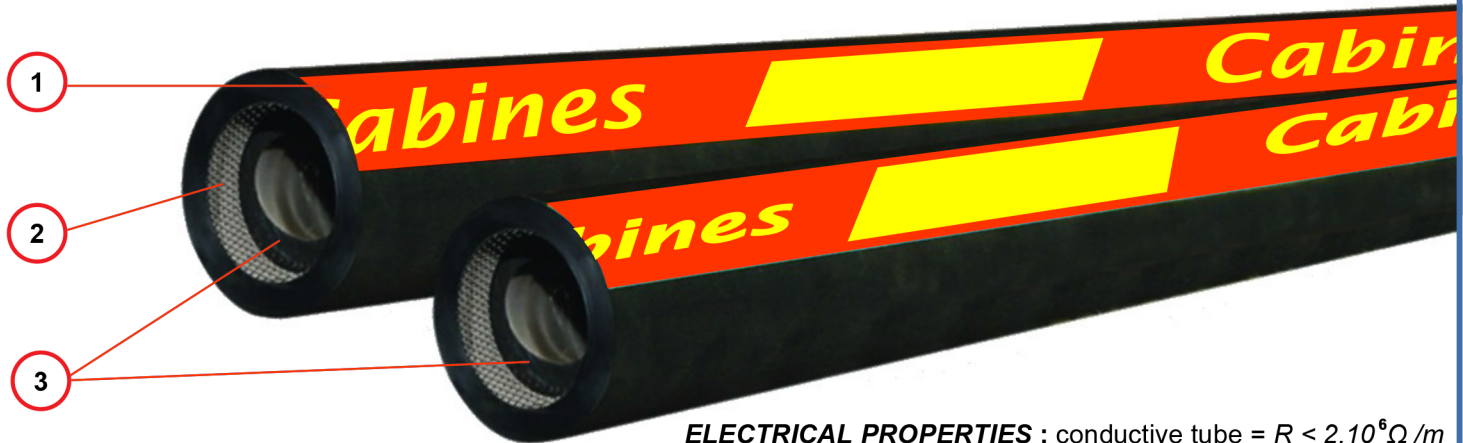

Classic shot blast hose for the transport of highly abrasive media. Very long service life due to abrasion resistant tube. Antistatic construction.

Abrasion : $R < 70 \text{mm}^3$ according to DIN 53516. **Temperature range** : $- 35^\circ + 80^\circ \text{C}$. **Work. pressure** : (max.) 12 bar

1. Cover Black, antistatic, weather and abrasion resistant SBR/NBR rubber compound, cloth impression.

2. Reinforcement
Textile, wrapped.

3. Tube Smooth, black, antistatic, abrasion resistant NR/BR rubber compound.
Abrasion according to norms. Max. 70mm^3 .

ELECTRICAL PROPERTIES : conductive tube = $R < 2.10^6 \Omega / \text{m}$
